

A2
Cont

4. **(Amended)** A solid preparation according to claim 1, wherein the weight ratio of the chitosan powder to the water-insoluble polymer is in the range of about 1:10 to about 10:1.

5. **(Amended)** A solid preparation according to claim 1, which is in a form selected from the group consisting of a pellet, a capsule, and a tablet.

Kindly add the following new claims:

10. **(New)** A solid preparation according to claim 2, wherein the enteric polymer is selected from the group consisting of hydroxypropyl methylcellulose acetate succinate, hydroxypropyl methylcellulose phthalate and methacrylic acid-ethyl acrylate copolymer.

11. **(New)** A solid preparation according to claim 2, wherein the weight ratio of the chitosan powder to the water-insoluble polymer is in the range of about 1:10 to about 10:1.

A3

12. **(New)** A solid preparation according to claim 3, wherein the weight ratio of the chitosan powder to the water-insoluble polymer is in the range of about 1:10 to about 10:1.

13. **(New)** A solid preparation according to claim 2, which is in a form selected from the group consisting of a pellet, a capsule, and a tablet.

14. **(New)** A solid preparation according to claim 3, which is in a form selected from the group consisting of a pellet, a capsule, and a tablet.

15. **(New)** A solid preparation according to claim 4, which is in a form selected from the group consisting of a pellet, a capsule, and a tablet.
